

G G C T G T G A C C G C

The image displays a DNA sequence: GGC TGT GAC CGC. Each letter is rendered in a large, bold, sans-serif font and is color-coded: G is yellow, C is blue, T is red, and A is green. Below the letters, a double helix structure is depicted with horizontal bars representing base pairs. The bars are color-coded to match the letters above: yellow for G-C pairs, blue for C-G pairs, red for T-A pairs, and green for A-T pairs. The sequence is presented in a single line with spaces between the codons.
