

G C T G A C T C A G C A

The image displays a DNA sequence logo for the sequence G C T G A C T C A G C A. The letters are color-coded: G is yellow, C is blue, T is red, and A is green. The logo shows a strong preference for G, C, and T in the first seven positions, and a strong preference for A in the last three positions. The G and C positions show some ambiguity, with G being preferred over C in the 10th position and C being preferred over G in the 11th position.
